Nickolas Bernard Krische

SUMMARY

An aspiring software developer and college student. Incredibly eager, passionate and quick learner. Loves to take on challenges, hard problems and tasks.

Team member that offers exemplary communication, work-drive, willingness and organization. Experience managing both people and projects, working alone and with minimal to no supervision, and the utilization of resources to complete tasks or activities in a timely manner. Reliable, enthusiastic, expeditious and willing employee.

EXPERIENCE

Office of the Chief Information Officer (OCIO), Carson City NV - *Public Service Intern 1*

January 9, 2023 - Present

- Remediate documents for a multitude of agencies throughout the state government.
- Train one-on-one with various state employees to help remediate their own agency's documents.
- Train in a class-like environment to teach a group of state employees and some external employees to remediate documents.
- Constant contact with other agencies in regard to document accessibility.
- Manage the state's website content management system (CMS).
- Post requests on the governor's website such as press releases, proclamations, executive orders, board vacancy updates, flag status updates, and any emergency requests.
- Build new web pages for public viewing.
- Train users within the state on how to operate and navigate the CMS.
- Manage the notice.nv.gov website that is used by several state and non-state boards to notify the public of any and all meetings to comply with Open Meeting Law (OML).
- Help manage intranet operations/content.
- Assist and write applications/software.
- Manage the adahelp.nv.gov website that is used as a ticketing page for anyone within the state with issues in regard to anything ADA.
